#### SIZING NOTES

- Measurements indicated in RED in illustration below are critical to get right prior to ordering your size on the product page. If in doubt please contact us for advise
- Measurements indicated in GREEN (and 'Jacket Waist Circumference' from table above but not shown in illustration below) are for reference only
- If your height is 'up to' 2 inches outside the range for your jacket or suit measurements in tables above, then you must provide your height and weight in the 'Additional Information' box at checkout. There may be a small additional sur-charge to make the size adjustments to your order
- If your height (or any other measurement in GREEN) is 'more than' 2 inches different to the table measurements, please contact us for details on our made to measure service
- The jacket length in the two piece suit combination is 1.5" shorter in length and also 1" narrower at the waist compared to regular jacket, and the shorter biker jacket version will be supplied (instead of the regular jacket) if a regular biker jacket is chosen with a optional trouser as an addon in product options

#### HOW TO MEASURE

##### A) Height

Stand against a wall and ask another person to measure from top of head to the floor keeping the tape vertical

##### B) Chest Circ.

Measure around the fullest part under the armpits

##### C) Outer Arm

Measure from shoulder tip to wrist end with arm bent 45°

##### D) Back Length

Measure from base of neck to above buttocks curvature

##### E) Shoulder Width

Measure Shoulder tip to tip

##### F) Waist

Measure around the waistline inline with navel (belly button)

##### G) Hips

Measure around the fullest part of your hips about 20cm below waistline

##### J) Inseam

Stand against a wall and ask another person to measure from groin to bottom of ankle
